

The City of Albany Riverfront Revitalization Study and \$3.5 Million Canal Corridor Initiative Grant

New York's Capital City, Albany's Waterfront District is planning and supporting

Interior view of the historic Quackenbush Pump House space prior to renovation.

extensive family entertainment and recreational opportunities in a waterfront activities center. Projects include renovation of the 1874 pump house into a micro brewery and restaurant, rehabilitation of historic structures to accommodate commercial occupancy, and the renovation of the historic Hudson Harbor Restaurant, among many other projects and activities.

The historic Quackenbush Pump House is now home to the C.H. Evans Brewing Company Restaurant, "Albany Pump House".

Behan Planning Associates, LLC, worked closely with the team from City of Albany and Albany County to produce this successful 3.5 million dollar grant application. These projects stimulated the largest private investment in the historic Quackenbush Square district in the last half century. The project includes significant public and private financing, and creates over 40 new jobs.
